

Operations Director

Industrial Services - Oil & Gas Industry - 2500 fte

Vacancy number: 180111

Location: Jubail - Saudi Arabia

Consultant in charge: Bert-Jan de Visser

Research consultant: Karin Bakker

Summary

Operations Director - Anabeeb

Our client Anabeeb (3000 employees) is located in Jubail (Saudi Arabia). Anabeeb has become one of the most experienced single-source maintenance and support specialists for leading industrials such as refineries, (petro-) chemical and steel industries, power/desalination plants. Anabeeb is a joint venture of Al-Osais (Saudi company) and the Dutch company Mourik.

The Operations Director will be fully responsible for all operational departments involved in field projects execution and will directly report to the General Manager who is also located at the office in Al Jubail.

Several job aspects:

- Required experience in contact with clients, contracts management and supervision over timely project delivery within budget;
- Keeping close communication and coordination with existing clients to ensure their highest satisfaction and develop any potential business opportunity in the market jointly with the sales & marketing team;
- Ensuring effective equipment and resource allocation for all jobs and projects by coordinating with all engaged departments (HR, Supply Chain, Contract Engineering Department, Finance);
- Assisting in the development of strategic plans for operational activity.

We are looking for a "hands-on" Operations Director (Bachelor and/ or University degree) with work experience preferably in the oil and gas industries or related sectors. The candidate should be familiar with "shut down and turn around" activities related to plant maintenance projects seen from a contractors point of view and interest.

Other important competences and skills: Strong character, high stress resistance level, diplomatic, teamplayer, commercial and willing to work in a multicultural environment and multinational staff. Fluent English speaker who is willing to live and work in the Middle East.

Anabeeb

Our client Anabeeb, Arabian Pipeline & Services Co Ltd., is located in Jubail (Saudi Arabia). Anabeeb, established in 1983, has become one of the most experienced single-source maintenance and support specialists for leading industrials such as refineries, (petro-) chemical and steel industries, power/desalination plants. Projects can be related to inspection, testing, construction, on-site maintenance, chemical cleaning, catalyst handling, water jetting and industrial vacuuming.

Anabeeb is a joint venture of Al-Osais (Saudi company) and the Dutch company Mourik.

Anabeeb counts up to 3000 employees mainly from the Far East of which 2500 employees are working in operations. Anabeeb can be characterized as a steady growing company with a strong competitive position in its line of business.

For this client we are currently looking for a Operations Director.
